HOPE NOW State Housing Report

Report Summary
HOPE NOW collects industry data from mortgage servicing members on a monthly basis. The data collected represents about 70% of the national mortgage market. HOPE NOW extrapolates this data for the entire industry using the Mortgage Bankers Association National Delinquency Survey, in order to create an accurate representation of the US housing market and identify trends within the industry.

Below you will find a state specific breakdown of the local housing market.

HOPE NOW: Data on Loan Workouts
Iowa: In the third quarter of 2017, 183 proprietary (non-HAMP) permanent modifications occurred in Iowa. This increased the amount of modifications provided to homeowners in Iowa to a total of 26,217 since mid-2007. The average loan count of Iowa in 2017-Q3 was 158,721 and 2.91% of those loans were delinquent (MBA Methodology).

</table>

1 Total Number of 60+ Loans (MBA Methodology) – Total number of (all) loans that are 60 days past due at month end based on MBA Methodology excluding loans that are currently in Pre-Sale foreclosure.
2 The columns below show the state delinquency rate relative to the national delinquency rate; a value greater than 100 means that the state’s delinquency rate is above the national average.
3 Number of (delinquent and current) Non-HAMP modified, renegotiated or restructured loans, regardless of performance to date under the plan during the month. Anything that alters the terms of the contract between the borrower and the lender that assists the borrower to maintain the home and that the loan is retained.
